PRODUCT GUIDE

WORLDS LARGEST SELECTION OF CONCRETE STAMPING TOOLS

Designing and producing unique, high quality stamping tools for concrete professionals around the world, Proline Concrete Tools continues to lead the industry. For over 20 years our texturing mats and seamless skins have consistently rendered the most natural and life-like results possible. We introduced the Roman Slate and Old Granite textures that have become today's industry standards. From homes to luxury hotels, owners and architects insist on Proline for beautiful results. For jobs big and small, contractors insist on Proline products because of their lightness and durability.

Proline products produce life-like stone and textures because they begin with the real thing. All mats and skins are created from actual stone, so architects can be confident that what they specified will be the result. And with over 150 stamps that can be used for both overlay and fresh pour, sizes up to 48" x 96", all skins with handles included at no extra cost, product color coding, complete hand tools, touch-up skins and our 12 and 16 inch patented shock absorbing Proline Tamper, contractors save money and produce higher quality results every time.

All skins and mats are made of the highest-grade urethane in a unique process that results in highly durable stamping tools that are the lightest available. Unlike other manufacturers, our stamps are carefully hand-built by true artisans who take great pride in producing precision products. Manufactured to ideal stiffness specifications, all our products give consistent excellent results throughout their lifetime.

As you go through this catalog you'll find out why more architects and contractors insist on Proline products every day. Then ask them. They'll tell you that there are simply no better tools anywhere.

We appreciate your business and to earn it we're committed to providing the highest quality products, the most innovative tools and the best support in the industry.

The goal is a very satisfied customer - Proline has the tools to do the job reliably, consistently and beautifully.

WORKING WITH PROLINE

We at Proline are proud to serve the decorative concrete industry with superior tools and innovative products. Every item we manufacture is designed and built to rigid standards to ensure not only accurate, predictable and beautiful results but that the tools themselves are as durable and long-lasting as possible. Our quality control is second to none and makes sure our tools are made to our exact specifications.

THE BEST WARRANTY IN THE INDUSTRY

All our products carry a lifetime guarantee against defects in workmanship. If any of our products fail in normal use and, in our opinion, exhibit manufacturing defects causing the failure, we will replace the product at no cost to the contractor. This warranty precludes normal wear and tear as well as failure from abuse, improper use or inappropriate application. Proline guarantees stamp alignment tolerance only when tools are purchased in complete sets.

WHERE TO FIND A PROLINE DISTRIBUTOR

Proline products are sold only through our worldwide network of distributors. If your local distributor doesn't carry Proline products, call us. For help in finding a distributor near you, call us at 800-795-4750!

BECOMING A PROLINE DISTRIBUTOR

If you're a distributor of decorative concrete products and don't carry Proline, you should. As a manufacturer, we enjoy the highest brand loyalty in the industry. Our distributors enjoy that same loyalty with the additional pay-off reflected in other product sales. We work very closely to make sure you have everything needed to support your customers, the contractors. Interested? Then give us a call right away at 1-800-795-4750.

WE'D LOVE TO HEAR FROM YOU

Our products are made for the decorative concrete professional. We continue to innovate with new designs and products, but we can't do it alone. If you have an idea for a tool or improvement that would make your work easier, faster, or produce something new and exciting, let us know.

SEAMLESS TEXTURING SKINS

SUPERIOR MATERIALS, EXCELLENT RESULTS

As a discerning property owner or discriminating architect you'll appreciate the industry's most natural life-like results from our Seamless Texture Skins. To faithfully reproduce these natural details, all of our mats and skins are mastered from real stone. Because of this and our pioneering innovations, such as feathered edges and extra-long skins for texturing walled edges, you can be sure every detail of the job will look like the real thing.

As an application contractor you'll appreciate how light and easy our mats and skins are to use. Plus, our skins are manufactured with tear-proof handles included and are formulated with the perfect mix of stiffness and durability. With skin sizes up to 25 square feet and extra long wall perimeter texture tools, you'll be more productive making the job go faster and easier. We even make touch-up skins for every single pattern stamp we manufacture.

There are dozens of Seamless Texture options to choose from. From Seamless Roman, Italian and Belgium Slate, to Seamless Quartzite....There are many textures to choose from to perfectly suit your next decorative concrete job.

Available in these sizes:

5' X 5'
w/ Handles

4' X 4'
w/ Handles

3' X 3'
w/ Handles

2' X 4'
w/Handles

20" X 20" TOUCH UP
w/out Handles

- Large skins have four handles, and are approximately 58" x 58"
- Medium Skins have four handles and are approximately 46" x 46"
- Small Skins have two handles, and are approximately 34" x 34"
- Touch-up skins (also available in Super Flex) do not have handles, are approximately 20" x 20"

CORNERS AND BORDERS

PERFECT COMPLEMENT TO ANY AREA

Proline proudly introduces a modern day update on ancient Greek and Roman border art. For the first time, walkways, floors and decks can have decorative edges, framed artwork and running borders with a truly elegant look. Our new Decorative Border Art Tools create stunningly realistic carved designs, both modern and ancient in style. This is that extra finishing touch that makes a decorative concrete installation truly unique and one-of-a-kind.

The Border Art Stamp is easily applied and gives consistently clean and clear results. Designed to be used in decorative borders, the Border Art Stamp is laid first, then covered with the desired texture skin. The stamps are flexible enough to allow installations to follow free-form contours as well as straight-line borders. But best of all, the results are incredibly beautiful.

ASHLAR

INNOVATIVE AND EASY TO USE

Proline's beautiful granite and slate textures in the Ashlar pattern are traditional yet innovative. The mats come in three textures designed for running in rows. The precisely fitting edges require a minimum of detail work.

ASHLAR ROTATING MATS

PROLINE CONTINUES TO INVENT

Our unique rotating mats for the Ashlar pattern have been designed to give a highly random pattern and realistic design with a simple rotational change. Modeled from real stone, the resulting surface is a beautiful rendition of slate and stone in three textures. Tight tolerances between mats result in less detail work and to speed up installation, each mat is marked on the back for rotation.

ROMAN SLATE

ITALIAN SLATE

ENGLISH ASHLAR

COBBLE STONE

PERFECT FOR AUTHENTIC AND BEAUTIFUL WALKWAYS AND PATIOS

We offer several options in our Cobblestone patterns, such as Cut Stone Cobble. Cut Stone Cobble is our most popular pattern in this category. Cobblestones date back centuries, remodeled from the water-worn round cobbles to the flat slate typically seen today. These elegant stones romanticize the old world bringing part of the past to the present and hopefully into the future.

There are dozens of Cobble Stone and European Fan options to choose from. Visit our website at WWW.PROLINESTAMPS.COM to view all of our patterns and options!

EUROPEAN FAN

INNOVATIVE AND EASY TO USE

The European Fan is an elegant pattern of chiseled cobblestones laid in a specific design conveying endless motion. Typically used in driveways this design makes the viewers eyes move constantly. Proline offers three versions of this incredible pattern, small stone, large stone and a seamless fish scale.

P
EUROPEAN
FAN

EUROPEAN COBBLE SERIES

PERFECT FOR AUTHENTIC AND BEAUTIFUL WALKWAYS AND PATIOS

Proline has designed a new radial stamp, unlike any on the market, that can create a radius of infinite dimensions with one affordable set of tools. Even more innovative, this stamp series can also create a Serpentine Cobble, a Straight Cobble and several band tool designs. With the 5 tools in the series, the possibilities are only limited by one's imagination.

To see our full line of EUROPEAN COBBLE SERIES, go to WWW.PROLINESTAMPS.COM or visit us on Facebook

FACEBOOK!

RANDOM STONE

REAL HAND CUT LOOK

The Random Stone Stamps are either single or multiple part units that beautifully reproduce hand cut and placed stone, sandstone, granite and flagstone. As with all Proline mats, these are molded from real stone complete with cut marks and defects. The Arizona Flagstone has wide irregular grout lines and occasional smaller pieces that actually make it hard to tell it from the real thing. Our unique Santa Fe Stone comes in three stone sizes on two mats each, so up to all six mats can be used together to form an exquisite multi-size, fully random or graduated stone sized surface. All of our sturdy, yet light mats are larger for faster coverage yet fit precisely requiring less detail work.

SANTA FE STONE

INNOVATIVE INTERCHANGEABLE MATS

With natural irregularities in grout lines and a rich texture from real stone, our new Santa Fe Stone mats produce extremely life-like results. They are also the ultimate for creating truly beautiful random stone patterns.

Proline's innovation really shows up in the wide range of pattern installation possibilities. The three stone sizes come as sets of two large 41" x 41" rotatable mats each that can all be used separately or together in one job, in any combination.

This permits application as one, two or three stone sizes placed either in completely random patterns or in graduated sizes when moving from one area into another. Plus, all six mats fit together precisely on all rotations so there's less detail work required.

ALL SANTA FE STAMPS ARE INTERCHANGEABLE

SLATE

PERFECT AROUND POOLS OR ANY AREA

This sedimentary rock gets split into sheets and cut into shape to make some of the finest roofing as seen on many cathedrals still today. Although this has been used for roofing throughout the years, among other things, we have produced several Slate stamping mats for you to explore your wishes. With background textures such as Belgium and Roman Slates we are always innovating.

BOARDWALK

THE BEAUTY OF WOOD WITHOUT THE MAINTENANCE

People love wood floors but hate the maintenance. Proline has the answer - give them the beauty of a wood floor with the durability of concrete. Cast from real wooden planks, Boardwalk is highly life-like right down to the pegs in the planks.

P
BOARDWALK

RECLAIMED TIMBER

Hundreds of years in the making, lumber from old barns, factories and warehouses are transformed into Reclaimed Timber. Bolts, Scratches, knife marks and an incredibly realistic texture creates a vivid back story to Proline's Reclaimed Timber. Available in 8", 12" and 16" widths, and up to 8' lengths.

PARQUET WOOD

This pattern will create a thousand and one designs from simple to intricate. Available to you in a 6" and 8", diagonal and straight, 32" squares. Never be without options with this truly interchangeable pattern.

MEDALLIONS

VARIED LOOKS, SOLID RESULTS

Add that extra flair to your next hardscape by using Proline's Medallion Stamps and color accents. Get that unique look you desire quickly and with better detail using our colors and accessories.

Our Medallions come in a variety of styles and sizes.

GEM-TEX™

REALISTIC STONE SPARKLE

GEM-TEX™ is a decorative concrete hardener that leaves a solid color surface enhanced with natural flakes of accent colors exposed through the use of DURA REVEAL™ deactivator. GEM-TEX™ is formulated with color coordinated additives that shine like crystals resulting in a natural, quartz-like finish that sparkles like a gem. The lightly exposed surface is slip-resistant, ideal for around pools and/or patios. It is made with the finest quality pigments and premium cements. Durable silica sand is used in a tight fitting formula producing a high quality, abrasion resistant surface.

REVEAL

Reveal is a sprayable surface deactivator designed to expose the concrete surface allowing aggregate to show through.

Available in #03 and #05, 5 gallon buckets.

COLOR PRODUCTS

PROLINE COLOR, STAINS & PREP

With over 40 standard designer colors, Proline's DURA COLOR HARDENER, DURA COLOR ANTIQUE RELEASE and EZ-TIQUE will give you the beautiful results you're looking for. With addition of Proline's high quality life-like texturing tools and accessories, you are sure to create the most realistic floors and hardscapes imaginable.

DURA COLOR HARDENER (CH)

Dry-shake Color Hardeners come as powders that are hand broadcast onto the freshly placed concrete and then worked into the surface with a float or trowel. Proline's Dura Color Hardener is a uniform, streak-free concrete color hardener that's durable enough for high traffic areas. In addition to adding color to concrete, it makes a great base for stamped concrete. Available in 42 beautiful colors.

Also available in Bags.

DURA ANTIQUE RELEASE (AR)

With over 40 standard designer colors, Dura Color Antique Release Agent will give you the beautiful results you're looking for. This product is a colored powdered release agent that will provide a contrasting effect on any stamped concrete. Combined with more than one color or alone, this product adds depth and dimension for a true natural look.

Also available in box or 1 Gallon Bucket.

PROLINE DURA COLOR HARDENER is a colored dry-shake hardener that is broadcast by hand over the top of freshly placed concrete and worked in with a wood float to form a dense, colored concrete 'skin' on the slab surface. Dry-shake color hardener is best applied to a concrete slab containing no more than a 4 inch slump and between a 5 and 6 sack per cubic yard cement content. This product is compatible with most admixtures, but avoid those containing calcium chloride. Apply PROLINE COLOR HARDENER shortly after screeding and floating the new concrete just as the bleed water is coming to the slab surface. See our website for further instruction.

EZ-TIQUE ANTIQUING WASH

Over 40 standard designer colors, plus custom color matching, EZ-Tique can be easily applied and holds fast to textured concrete. Each 3lb. bucket covers up to 3,000 sf of freshly textured concrete or use to revitalize an older textured surface.

PROLINE DURA-LIQUID RELEASE AGENT

Proline Dura-Liquid Release Agent is a parting agent designed to prevent stamping tools from sticking to the substrate. It does this by creating a temporary, water-proof barrier between the fresh concrete and the textured mat. The barrier then evaporates quickly for easy cleanup.

Available in 5 Gallon & 1 Gallon Containers

EZ-TIQUE DRY BUFFER & BRUSH

INTEGRAL COLORS

Proline Powdered Integral Colors are packaged in 1-pound, 5-pound and 25-pound bags. Each color chip includes a name, color code, and dosage rate per 94-pound sack of cement. Integral Colors are used in ready mix, architectural pre-cast, cast-in-place, tilt up, ornamental concrete, shot-crete, mortar, pavers, roof tile, stucco, concrete masonry, retaining wall units, and other cement-based construction materials. These products are designed for mix-in use only and should not be sprinkled onto the surface of the concrete.

BENEFITS

- Easy to use powder designed for ready mix truck and job site loading.
- Colored to enhance any decorative concrete surface.
- Mixes evenly.
- UV-Resistant Color.
- Cost-effective blend of pre-packaged quality coloring agent composed of iron oxide pigments.

COLOR PRODUCTS

PROLINE COLOR, STAINS & PREP

EZ-ACCENT

BEAUTIFUL WATER BASED STAIN

Proline Dura Color EZ-Accent is a water-based acrylic stain that is specially formulated to accent any decorative concrete surface.

It is a translucent stain that is designed to blend with the base color over which it is applied. EZ-Accent is quickly and easily applied to decorative concrete flatwork, vertical surfaces and rockscaped for accent colors and natural-looking variations.

There are 15 standard EZ-Accent colors. Available in 4 ounce (coverage 5-20 square feet) and 1 gallon (coverage 400-800 square feet).

Also available in AC-700 Black and AC-800 White

DURA ETCH

Dura-Etch is a concentrated, phosphoric acid based etcher to be used to prep for any Proline Stain application. Coverage: depends on dilution, minimum 200 sf/gal. Available in 1 gallon.

DURA CLEAN

A full strength, biodegradable cleaner for removing oil, dirt, grease and wax from concrete. Dura-Clean is an excellent way to neutralize Dura-Stain prior to sealing. Coverage: 200 sf/gal. Available in 1 gallon.

DURA ACID STAIN

EXQUISITE REACTIVE STAIN

Chemical, or Reactive Stains, can be applied to new or old, plain or colored and stamped concrete surfaces.

Chemical Stain penetrates and permanently stains new or existing concrete and wears only as the concrete wears.

Use a reactive stain for creative faux finishes, permanent and variegated colors, no chipping or peeling and lasting results.

DURA WAX

For indoor use only! This water based acrylic wax is non-yellowing and reduces the need to reseal surfaces. Coverage: 1500 sf/gallon. Available in 1 gallon.

DURA STRIP

Dura Strip is a concrete coating remover designed to remove any coating without harming the concrete. Coverage: 100-200 sf/gallon. Available in 1 gallon

DURA-EARLY SEAL

Early seal is a high solids, styrene-acrylic, co-polymer sealer meant to provide a protective gloss finish to the surface. Coverage: 200 sf/gallon

Available in 5 gallons

REVEAL #03 & #05

Reveal is a sprayable surface deactivator designed to expose the concrete surface allowing for aggregate to show through. Coverage: 200 sf/gallon.

Available in 5 gallons

DURA SEAL

DURA-SEAL HIGH GLOSS OR MATTE FINISH SEALER

Proline Dura-Seal is a solvent-based clear sealer that is available in Hi-Gloss and Matte finish, in 1 gallon and 5 gallon units. It is designed to be used over most cementitious substrates including stamped, color-hardened concrete surfaces and overlays. It will seal over other Proline coatings and is a perfect sealer/color enhancer for chemically stained concrete. Ideal for interior and exterior use, Dura-Seal will not yellow and has excellent UV stability. Available in various VOC content, please know your local restrictions.

P
D U R A L
S E A L

PRO STAIN

STUNNING SOLID COLOR COVERAGE

Pro-Stain is a water-based, high quality stain made for use with existing unsealed interior or exterior concrete surfaces. It penetrates the surface of concrete and forms a breathable finish that can be sealed when dry.

COVERAGE: Two coats at 300-400 square feet each.

TOOLS NEEDED: Flag-tipped broom and handle, bucket, water.

Existing Concrete: All debris, loose concrete, coatings, paints, oils, releases, etc must be removed by proper pressure washing, acid washing, grinding, or stripping. We recommend DuraClean™ and DuraEtch™ products as needed for surface prep. Etching or grinding is needed on hard troweled tight/dense smooth concrete.

New Concrete: Needs to cure 30 days in warm weather, longer if cold. All new concrete must be properly cleaned of the surface alkalizes, dusting, efflorescence. These chemicals are present but not visible and they will lead to early failure of the stain as they will activate each time they get wet.

PRO STAIN APPLICATION GUIDE

PREPARE

Remove all debris, loose concrete, coatings, paints, oils and releases using a pressure washer...

MIX PER INSTRUCTIONS ON BOX

Agitate mixture each time brush is bucket....

APPLY

Apply with no pressure on broom in a circular motion, maintaining a wet edge, leaving no puddles.

RE-APPLY

Re-broom until almost dry. If walked on, re-broom the footprints as you back your way off. Apply second coat as needed.
